Quality Ski Lessons - Telemark Private Lessons - Engagements - Engagements Off Piste - Group Lessons - Ski-Clinics

Skiing appeared in the Alps at the end of the 19th century when a captain of the army returned from Oslo Norway with telemark skis. At the end of the second world war, with the development of the ski resorts, a rear binding was developed and the alpine technique was born. Then, towards the end of eighties, Telemark skiing which never lost its followers in the Scandinavian countries, began to reappear on the slopes of our resorts. This elegance in movement, like that of a dancer, sparked the curiosity of local skiers to test this "new" old technique. With the intermediate level of an alpine skier, one can experience the exceptional sensation of telemark skiing. Those who have tried could have never imagined that after only a few hours of lessons, they could telemark their favorite slopes. If you dare, you will discover the magical movements of the telemark turns, in the bumps and of course, off piste telemaking !

Come join us for various technical advices,
so we can share with you our passion of the most beautiful skiing we know of the Alps.
